**Subject:** Public records act request re letter to Gunn community

Dear Trustees of the PAUSD Board of Education,

This is a request under the California Public Records Act. On May 5, 2012, the Superintendent and the Gunn Principal sent an email to a PAUSD list with the subject, "Gunn Guidance Services." Please send me, or alternatively tell me where I can inspect, all communications between you and district staff and other Board members on the subject of this email, including but not limited to any drafts or review requests sent to you prior to the sending of the email and any responses from you.

I'm sending you this request in the interest of enabling public visibility into the process by which the Board and the district are handling the question of equity in counseling services being delivered at Gunn and Paly, an interest that I'm sure you all share.

Best regards,  
Ken Dauber
